EAGLE®

FISHFINDERS

BORN TO FISH™

EAGLE® was born to make fishing as simple and enjoyable as possible. Eagle features newly designed HD sonar with autotuning, game changing FishReveal™ technology and detailed C-MAP® charting with Genesis® Live™ – all on an IPS screen. With truly eagle-like vision, it really is so easy to find and see fish.

ENHANCED SONAR*

The newly designed TripleShot™ HD and SplitShot™ HD offer improved clarity, depth, and sensitivity, leading to better performance under the surface. And FishReveal™ on DownScan makes it easier than ever before to tell the fish from the weeds. After all, an Eagle thrives on its vision.

* Relevant transducer required. Excludes 4x

DESIGNED TO FISH

With a new, rugged and modern design built exclusively for anglers, by anglers, Eagle features a new IPS screen for improved resolution, clarity and visibility, even with polarized sunglasses in direct sunlight. A new range of imaging color palettes lets you adapt the display for changing conditions. And the new 4x model provides total flexibility with portrait orientation and true-scroll sonar.

CONNECT & CAST

Simple autotuning sonar gives you the optimal settings from the start so you don't have to spend time trying to find them yourself. Plus, an improved twist-locking connector allows for easy and reliable installation and removal, making Eagle a great portable solution for any type of fishing.

DETAILED MAPPING**

Eagle comes pre-loaded with a worldwide basemap chart, and the option to upgrade to CMAP® DISCOVER®. With the ability to create custom ½-foot contour maps of your local lake or uncharted water – in real time - with Genesis Live, you have all the detail you need to discover and navigate to the best fishing spots, faster.

**4x model is not compatible
